INDEPENDENT AUDITOR'S REPORT

Members of the Township Board
Township of Burns
Shiawassee County, Michigan

We have audited the accompanying general-purpose financial statements of the Township of Burns, Michigan, as of and for the year ended March 31, 2005. These general-purpose financial statements are the responsibility of the Township of Burns, Michigan's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The municipality has elected not to comply with the provisions of governmental Accounting Standards Board Statement #34. The basic financial statements were prepared on the modified accrual basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. GASB 34 requires management's discussion and analysis which also has not been presented.

In our opinion, except for the non-application of GASB34, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Township of Burns, Michigan, as of March 31, 2005, and the results of its operations for the period then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements of the Township of Burns. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general-purpose financial statements taken as a whole.

Our report of comments and recommendations has been submitted under date of July 25, 2005.

TOWNSHIP OF BURNS
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED MARCH 31, 2005

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Township of Burns conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

FUND ACCOUNTING

The accounts of the Township are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into generic fund type and broad fund categories as follows:

GOVERNMENT FUNDS

General Fund - The General Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

FIDUCIARY FUNDS

Trust and Agency Funds - Trust and Agency Funds are used to account for assets held by the Township in a trustee capacity or as an agent for individuals, private organization, other governments, and/or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FIXED ASSETS AND LONG-TERM LIABILITIES

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. All government funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financial sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Asset Group, rather than in governmental funds. Public Domain ("infrastructure") general fixed assets consisting of certain improvements including buildings, other than roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems, are capitalized along with other general fixed assets. No depreciation has been provided on general fixed assets.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds.

The two account groups are not "funds". They are concerned only with the measurement of financial position. they are not involved with measurement of results of operations.

Because of their spending measurement focus, expenditure recognition for governmental fund types is limited to exclude amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities. They are instead reported as liabilities in the General long-Term Debt Account Group.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Taxpayer-assessed income, gross receipts and sales taxes are considered "measurable" when in the hands of intermediary collecting governments and are recognized as revenue at that time. Anticipated refunds of such taxes are recorded as liabilities and reductions of revenue when they are measurable and their validity seems certain.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include; (1) accumulated unpaid vacation, sick pay, and other employee amounts which are not accrued; and (2) principal and interest on general long-term debt which is recognized when due.

BUDGETS AND BUDGETARY ACCOUNTING

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the beginning of the fiscal year, the clerk submits to the Township Board a proposed operating budget for the fiscal year commencing the following April 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted in the Township to obtain taxpayer comments.
3. Prior to April 1, the budget is legally enacted through board approval.
4. Budgets for the General and Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BUDGETS AND BUDGETARY ACCOUNTING (CONTINUED)

5. The budgets were amended during the year ended March 31, 2005. The fire funds budgeted expenditures were increased from \$69,700 to \$69,900). The general fund budgeted expenditures were increased from \$307,600 to \$309,125. The fire equipment fund budgeted expenditures were increased from \$25,300 to \$110,789. Revenues from 37,200 to \$128,252.

INVESTMENTS

Investments of the Township which consist of interest bearing bank accounts and bank certificates of deposit are stated at cost, which is market value.

COMPARATIVE DATA

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the townships financial position and operations. However, comparative data (i.e. presentation of prior year totals by fund type) data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, transactions occur between individual funds for services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet.

COMPENSATED ABSENCES

The Township does not compensate employees for vacation time, sick time or any other absences.

POST-RETIREMENT HEALTH CARE BENEFITS

The Township does not provide post-retirement health care benefits.

TOWNSHIP OF BURNS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2005

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ENCUMBRANCES

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting - under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is utilized in the government fund types. Encumbrances outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. There were no significant encumbrances at year end.

COMPONENT UNITS

The accompanying financial statements present the Township's primary government and component units over which the Township exercises significant influence. Significant influence was determined on the basis of budget adoption, taxing authority, outstanding debt secured by revenues or general obligation of the Township to finance any deficits that may occur or receipt of significant subsidies from the Township. Component units that do not meet the criteria for blending are reported discretely.

Based on the foregoing criteria, there were no organizations that need to be included in the Township's annual report.

PROPERTY TAX

Taxes levied on December 1, are payable on February 14. Summer taxes are levied July 1, and payable on September 14. The townships bills and collects its own property taxes and also taxes for the county and local school districts. Collections of the county and school taxes and remittances of them are accounted for in the current tax collection fund. Township property taxes are recognized when levied to the extent that they result in current receivables.

USE OF ESTIMATES

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

TOWNSHIP OF BURNS
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
YEAR ENDED MARCH 31, 2005

PROPERTY TAX (CONTINUED)

The Township is permitted by the Municipal Finance law of the state to levy taxes up to 1.0 mill for general governmental services. .8998 mill is levied for general services and 1.000 mill is levied for fire protection, and .5000 mill levied for fire equipment.

The delinquent real property taxes of the Township are purchased by the County of Shiawassee. The county sells tax notes, the proceeds of which are used to pay the Township for these delinquent taxes. This is expected to take place during June, 2005. These delinquent taxes have been recorded as revenue for the current year.

NOTE B - CHANGES IN GENERAL FIXED ASSETS

A schedule of changes in fixed assets is included in the individual financial statements section.

NOTE C - INTERFUND RECEIVABLES AND PAYABLES

At March 31, 2005, individual receivables and payable balances were:

Burns Township
Shiawassee County, Michigan

In compliance with the provisions of Section 11, Paragraph 2, of Act 2, Public Acts of 1968, we discovered the following areas which required specific recommendation, as a result of the audit our firm performed on the financial statements of Burns Township for the year ended March 31, 2005.

We have no comments or recommendations at this time.

We wish to thank the board for the excellent cooperation we received in performing the township audit. If we can be of any further assistance to the township please contact us.

Sincerely,

Certified Public Accountants
